BEFORE

AFTER

Take a good, long look at these before/after pictures, guys. Which undershirt do you think about, say, 99.9% of the population would say had more sex appeal?

Right, the sloppy, baggy undershirt on the right definitely does *not* qualify! which probably explains why the undershirt on the right — from the **Tommy John Second Skin Collection** — is the top-selling undershirt at **Nordstrom** and **Neiman Marcus** nationwide — including the Neiman Marcus in Orlando.

Tommy John's Second Skin collection is an innovative line of men's undershirts made from a unique fabric blend that offers multi-directional stretching, combined with a longer length and a tailored cut. This allows them to comfortably hug the torso, stay tucked in place, and easily move with the body. The undershirts come in sizes S-XXL, and the fabric helps the wearer stay cool and dry.

Priced from \$31- \$38, the collection offers crewneck, V-neck, long-sleeve and tank styles in white and black. Sizes from S-XXL. More details: www.tommyjohnwear.com.
